

# C-I-L Peer Brokerage Service

Sustainability and Innovation for your User Led Organisation

The leading organisation for Peer Brokerage

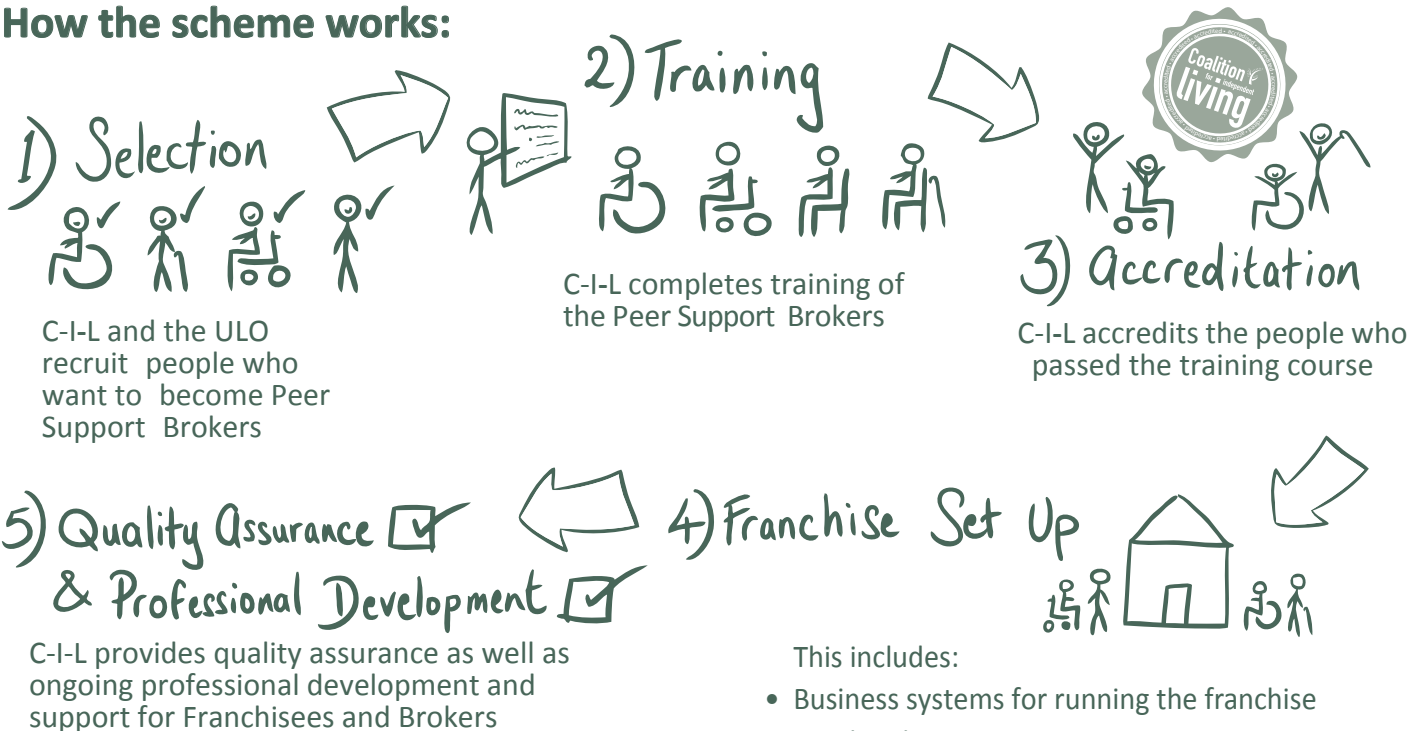

## An opportunity for User-Led Organisations to run their own C-I-L Franchise

Financial sustainability for User-Led organisations is a growing challenge. While the government is promoting the importance and necessity of the ULO role within society, funding opportunities are becoming increasingly rare.

C-I-L Peer Support Brokerage Service Franchises allow User-Led Organisations to offer independent, accredited, professional brokerage services to their communities. They are structured, quality assured and financially sustainable.

### How the scheme works:

#### Having a C-I-L franchise in your area means:

Excellent value for money

The growth, development and financial sustainability of ULOs  
Exceptional service from professionally accredited Peer Support Brokers with ongoing quality assurance

Better choice and control for service users

Service user engagement and Impartial Peer Support

### What you need to establish a C-I-L Franchise:

Motivated, enthusiastic users of health and social care services to train to become Peer Support Brokers and establish a local Franchise

We are working with Local Authorities to sponsor ULOs to develop local C-I-L Franchises

## A C-I-L Franchise provides these services:

- Support Planning
- Direct Payment / Individual Budget Set-Up
- Services for Individual Budget users including:
  - Support staff recruitment and HR guidance
  - Employers Liability Insurance
  - Staff Payroll
  - Financial Monitoring
  - Outcomes and Goal Monitoring

### Set up costs:

There is a cost associated with taking on a franchise in the first year - **after that the franchise will be self sustaining.**

C-I-L works with ULOs and Local Authorities to find appropriate ways to cover the initial start up fees through sponsorship and small business loans.
